

Edgar J. Fenzl, M.D., Ph.D.

Managing Director, QPPV

Edgar Fenzl is a physician with a doctorate in clinical pharmacology. He has over 35 years experience in pharmaceutical medicine. He has worked in a number of pharmaceutical companies and clinical research organizations, where he has held appointments with increasing responsibilities as chief physician, head of clinical research units and managing director. Dr. Fenzl has overseen a large number of in-house, national and international clinical studies. He has supervised and managed phase I to IV clinical studies in pharmacokinetics, in a broad range of medical indications, as well as studies for OTC products; he is widely published in these. As head of clinical research for a number of companies he has supervised project leaders and medical advisors, and acted as the Sponsors responsible medical officer for drug safety and regulatory issues. He has extensive experience in company organization and management, including company restructuring (“reengineering”). His current focus is on providing service as QP for pharmacovigilance for clients and consulting on drug development and regulatory topics. He is Managing Director of FGK Clinical Research GmbH, FGK Clinical Research Kft. and FGK Representative Service GmbH and serves as a Director at FGK Clinical Research Limited as well as FGK Representative Service Limited.
